- 1.11 No history of resigning or failing in any course organised by the government of Malaysia.

2. PROGRAMME SUMMARY

- 2.1 Mandatory training period of 4 years in recognised cardiothoracic training centres in the field of Cardiothoracic surgery before commencement of another 2 years of Higher Surgical Training in relevant areas of interest which will be determined later and may include a training period spent overseas.
- 2.2 Subject to conditions, candidates will be eligible to attempt the examination of Fellow of the Royal College of Surgeons of Edinburgh in Cardiothoracic Surgery (FRCS CTh) after satisfactorily completing 4 years of training.
- 2.3 On successfully passing the FRCS CTh examination and satisfactory completion of the full 6 years of training, candidates will be awarded a Certificate of Completion of Training (CCT). Candidates will need to satisfactorily complete a further 1 year of supervised practice at a recognised institution following award of the CCT before being eligible for admission into the National Specialist Register (NSR).

3. OFFER TERMS AND CONDITIONS

3.1 Candidates may be placed in any accredited centre at any time during the period of training.

3.2 Continuation on the training programme and yearly progression is conditional on payment of the course fees. MOH medical officers should be in receipt of a *Hadiah Latihan Persekutuan* (Federal Scholarship). Non-MOH doctors will need to arrange for sponsorship from Universities, IJN or other sources. An initial registration fee payment of RM5000.00 will be required upon acceptance into the programme, and the first-year course fees must be paid within six months of commencement of training.

3.3 Shortlisted candidates will be invited for an interview.

3.4 Candidates who are deemed not to have achieved the required standards of training during periodic assessments or those who are found unsuitable for cardiothoracic surgical training will be dropped from the programme.
